

Legal Overview – TNGNET B.V.

TNGNET B.V., established in Amsterdam, the Netherlands, operates under Dutch and European law. TNGNET provides infrastructure, GPU hosting, cloud, and connectivity services within the European Economic Area (EEA), emphasizing digital sovereignty, data protection, and transparency. TNGNET also operates several additional brand names, part of its product and service portfolio.

1. Legal Framework

TNGNET complies with:

- General Data Protection Regulation (EU 2016/679) ('GDPR');
- Dutch GDPR Implementation Act (Uitvoeringswet AVG);
- Dutch Civil Code and relevant tax and telecommunications laws.

All services are subject to TNGNET's General Terms & Conditions, Privacy Statement, and Data Processing Agreement (DPA).

2. Privacy Statement

The Privacy Statement describes how TNGNET collects, processes, and protects personal data in its roles as Data Controller and Data Processor. It also references TNGNET's Sub-Processor List available at www.tngnet.com/legal.

3. Data Processing Agreement (DPA)

TNGNET's DPA defines the rights and responsibilities of TNGNET (Processor) and its customers (Controllers). It references the same Sub-Processor List and Technical and Organizational Measures published at www.tngnet.com/legal.

4. Sub-Processor List

TNGNET maintains a public Sub-Processor List identifying trusted partners supporting its operations. It includes their role, location, and data categories processed. The current version is available at www.tngnet.com/legal.
